Jeg bekræfter, at barnet er i besiddelse af de dokumenter, der er nødvendige under rejsen, herunder billet og legitimation. Jeg er indforstået med, at vejr og andre forhold uden for befordrerens kontrol kan forårsage, at maskinen må lande i en anden lufthavn end den, der er nævnt som destination, og at rejsen derfor eventuelt må fuldføres med andet transportmiddel. Da befordrereren påtager sig transporten af et barn, erklærer jeg mig herved indforstået med at holde befordrereren skadesløs for alle udgifter i forbindelse med barnets pasning, forudsat af disse udgifter ligger uden for normer af det, der sædvanligvis ydes voksne passagerer på den anførte rute. Endvidere er jeg udtrykkelig indforstået med at afholde mig fra at gøre befordrereren ansvarlig og erstatningspligtig i forbindelse med transporten, med undtagelse af det ansvar, befordrereren normalt har over for passagererne i henhold til gældende befordringsbestemmelser.</p> <p>I, the undersigned, will ensure that the abovementioned-child, who is travelling unaccompanied, is accompanied to the departure and met at the airport by a responsible person. I confirm that the child is in possession of all the documents necessary during the journey, including tickets and identification. I accept that weather and other conditions beyond the control of the carrier may lead to the aircraft having to land in an airport other than that named as the destination and that the journey may, therefore, need to be completed by another means of transport. As the carrier is undertaking to carry a child, I declare that I hereby agree to indemnify the carrier for all expenses in connection with looking after the child, provided that these expenses are beyond what would normally be provided to adult passengers on the route stated. Furthermore, I expressly agree not to hold the carrier responsible and liable for compensation in connection with carriage, except for the responsibility the carrier normally has in respect of its passengers pursuant to the applicable conditions of carriage.</p>
